Preface	v
Introduction	vii
About the Author	ix
Chapter 1 - Therapy and Treatment	1
Trial finds tenofovir gel safe for daily use and most women adhered to study regimens	1
HIV prevention researchers to compare common ARV as a pill and vaginal gel in unique study	3
UC Davis researchers discover how HIV turns food-poisoning into lethal infection	4
Operations research promises continued gains for HIV treatment in resource-limited countries.....	6
Landmark study defines benefits of early HIV testing and treatment for infected infants	7
Stanford scientists' discovery of virus in lemur could shed light on AIDS.....	8
Early cessation of breastfeeding by HIV+ women in poor countries and child survival	9
Vaginal microbicides may prevent more infections in men than women	10
Smear campaign: Faster detection of multidrug-resistant TB for public health.....	11
Integrating antiretroviral therapy with TB treatment for co-infections reduces mortality	12
Study examines cost-effectiveness of HIV monitoring strategy in countries with limited resources	13
More Articles	14 - 116
Chapter 2 - Cell Biology	117
Research on HIV/AIDS cancer published by scientists at University of Nigeria	117
Research conducted at University of Zimbabwe has updated our knowledge about HIV/AIDS.....	117
Studies from University of Copenhagen update current data on HIV/AIDS	118
Studies from University of Cape Town add new findings in the area of HIV/AIDS.....	119
Findings from B.O. Ibeh et al in HIV/AIDS reported.....	119
New HIV/AIDS study findings reported from Centers for Disease Control and Prevention.....	120
Chapter 3 - Diagnostics and Screening	121
Reports from A.J. De Baets and colleagues advance knowledge in HIV/AIDS in children.....	121
New research on HIV/AIDS screening from University of the Witwatersrand summarized.....	122
Scientists at University of Cape Town, National Health Laboratory Service report research in HIV/AIDS	122
Data from G. Aderaye et al provide new insights into HIV/AIDS co-infection	123
Data on HIV/AIDS detailed by A.J. Debacts and co-authors	123
Data on HIV/AIDS co-infection detailed by J.O. Mugisha and co-authors.....	124
Research from D.A. Lewis and co-researchers provides new data on HIV/AIDS co-infection	124
Research from University of Washington yields new data on HIV/AIDS.....	125
Studies from University of North Carolina describe new findings in HIV/AIDS	126
Reports from M.S. Mahlakwane and co-researchers add new data to research in HIV/AIDS co-infection	126
New HIV/AIDS research has been reported by scientists at Duke University	127
More Articles	128 - 130
Chapter 4 - Epidemiology	131
Sub-Saharan Africa: the population emergency.....	131
Circumcision doesn't reduce sexual satisfaction and performance, says study of 4,500 men.....	132
RSTMH president calls for reassessment of global health priorities	133
Over 1 in 4 South African men report using physical violence against their female partners	133
A more rational and scientific approach to AIDS is needed, says expert	134

Depression common among Rwandan youth who head households	135
Ben-Gurion University of the Negev initiates project to eliminate intestinal worms in Ethiopia.....	135
Challenges of HIV-1 subtype diversity.....	136
amfAR Announces Funding for HIV Services and Research Aimed at Men Who Have Sex With Men in Developing Countries	136
Disinfecting Water Saves Lives in Rwanda.....	137
Reports from Medical Research Council describe recent advances in HIV/AIDS clinical trial	138
More Articles	139 - 214
Chapter 5 - Immunology	215
Study sees need for standardized evaluation of antibody response to HIV-1	215
Research from Coordinating Center for Infectious Diseases in the area of HIV/AIDS therapy published.....	215
Study findings from Centers for Disease Control and Prevention provide new insights into immunization	216
Study data from University of Manitoba, Department of Medical Microbiology update understanding of HIV/AIDS immunology	217
Researchers from Population Council publish findings in HIV/AIDS	217
Study results from University Hospital, Department of Immunology in the area of immunology published.....	218
New HIV/AIDS data have been reported by C.A. Blish and co-authors	218
Studies from University of Alabama yield new data on HIV/AIDS	219
Study data from J. Legoff and colleagues update understanding of HIV/AIDS co-infection.....	220
New findings in HIV/AIDS described from University of Arizona, Medical Department.....	220
Research on HIV/AIDS detailed by D. Senkaali and co-authors.....	221
More Articles	222 - 230
Chapter 6 - Risk and Prevention.....	231
Male circumcision efforts lag in Africa despite evidence of dramatic impact in preventing HIV.....	231
Major shift in HIV prevention priorities needed.....	233
Male circumcision may decrease risk of HPV infection and cervical cancer	234
Involving partners of pregnant women in Africa to improve AIDS prevention	235
Circumcision rates lower in states where Medicaid does not cover procedure.....	236
Catching the blood cell bus gives fatal yeast infection a clean getaway.....	237
Circumcision not associated with reduced risk of HIV for men who have sex with men.....	237
Prevention and control of childhood pneumonia: Bulletin of the World Health Organization.....	238
Keeping young South Africans in school: A 'social vaccine' against AIDS	239
USAID Announces Youth-Focused HIV/AIDS Programs in Ethiopia.....	239
New findings in HIV/AIDS epidemiology described from University of California	240
More Articles	241 - 280
Chapter 7 - Tuberculosis.....	281
A new more effective tuberculosis screening test for HIV victims	281
Research results from National Institute of Allergy and Infectious Disease update understanding of HIV/AIDS co-infection immunology	282
Reports summarize HIV/AIDS co-infection epidemiology study results from Institute for Medical Microbiology.....	282
Studies from Liverpool School of Tropical Medicine have provided new information about HIV/AIDS co-infection.....	283
Reports outline HIV/AIDS co-infection histology study results from D. Beyene et al	284
Data on HIV/AIDS co-infection published by researchers at Centers for Disease Control and Prevention	284
Research reports from University of Cape Town provide new insights into HIV/AIDS co-infection.....	285

New HIV/AIDS co-infection findings from Johns Hopkins University published.....	285
Research results from University of Cape Town update knowledge of HIV/AIDS co-infection	286
Study results from D.G. Datiko et al provide new insights into HIV/AIDS co-infection.....	287
Reports from M. Vray and co-researchers add new data to research in HIV/AIDS co-infection	287
More Articles	288 - 294
Chapter 8 - Vaccines.....	295
Results of landmark study of HIV vaccine published in the Lancet	295
Governments urged to fight global child killer	297
Immunizing Against Misinformation and Shortsightedness	297
BARC Announces Long-Term Cooperation In South African Biobanking for HIV Vaccine Trials	298
Scientists at Nagasaki University, Institute of Tropical Medicine target HIV/AIDS vaccines.....	299
Research from University of Cape Town reveals new findings on HIV/AIDS vaccines.....	299
New HIV/AIDS findings from T.W. Geisbert and co-researchers published.....	300
Research reports from University of Cape Town provide new insights into cancer vaccines	300
Research from University of Cape Town in the area of DNA vaccines described	301
New HIV/AIDS findings from S. Mehendale and co-researchers published.....	302
Index.....	303
