Preface	v
Introduction	vii
About the Author	ix
Chapter 1 - Swine Flu	1
La Jolla Institute announces 2.0 launch of major database to aid vaccine development worldwide	1
Swine flu monitoring needed for farm workers, study says.....	2
CDC: H1N1 (Swine Flu) and You.....	2
Novartis investigational adjuvanted (MF59) pre-pandemic avian influenza vaccine Aflunov® shows long lasting, broadly cross-protective immune response	6
Luminex Corp.'s xTAG Respiratory Viral Panel Assay Effective for Swine Flu Surveillance	8
Natural Killer Cells May Help Protect Against New Strains of Influenza Virus.....	9
AeroMexico addresses the recent influenza outbreak to help protect health of the public, passengers & employees	10
Swine flu could impact on 'seasonal flu' vaccines	11
Hospital Rapid Alert System Supports Swine Flu Pandemic Communications.....	11
College of American Pathologists Is Confident in U.S. Laboratories' Ability to Respond to Influenza Outbreak.....	12
College of American Pathologists is Confident in U.S. Laboratories' Ability to Respond to Influenza Outbreak.....	13
More Articles	14 - 24
Chapter 2 - Epidemics and Pandemics	25
Satellites track migratory birds in the fight against bird flu.....	25
Bird flu poses threat to international security, scholar says.....	26
Fighting misconceptions is first hurdle in Africa's battle against bird flu.....	27
Collaboration will create plan to manage mass casualties in disasters	28
New wheat disease could spread faster than expected.....	29
1 in 7 cases of bird flu could be prevented by closing schools in event of pandemic.....	30
Internet game provides breakthrough in predicting disease spread.....	31
Study of sugars on cell surface identifies key factor in flu infection	32
Link found between influenza, absolute humidity	33
Shift in feeding behavior of mosquitoes sheds light on West Nile virus outbreaks.....	34
Lab-on-chip testing for 'bird flu' developed by Singapore scientists	35
More Articles	36 - 138
Chapter 3 - Genetics	139
Scientists unravel critical genetic puzzle for flu virus replication	139
Discovery helps explain how the flu stays ahead of our defenses	140
Fruit fly gene study could yield new flu treatments.....	141
Scientists isolate genes that made 1918 flu lethal.....	142
Flu tracked to viral reservoir in tropics	143
Genetic breakthrough supercharges immunity to flu and other viruses	143
Researchers at Robert Koch Institute release new data on influenza.....	144
Researchers from Niigata University describe findings in influenza therapy	145
New influenza therapy study results reported from St. Jude Children's Research Hospital, Department of Infectious Diseases.....	145

Researchers from Yamagata University, Department of Infectious Diseases detail new studies and findings in the area of epidemic	146
New data from University of Freiburg, Department of Virology illuminate research in influenza therapy.....	146
More Articles	147 - 178
Chapter 4 - Immunology	179
OHSU scientists partner with others to form center aimed at combating infectious diseases	179
Researchers Find Surprising Pattern of Influenza Spread in South America and Tropics.....	180
Scientists aim to thwart use of flu as bioweapon	181
Flu may bide time in icy limbo before re-emerging.....	182
The most natural drug	183
1918 Spanish flu records could hold the key to solving future pandemics	183
Feed a cold, feed a fever: Research shows calorie cut makes it harder to fight flu.....	184
Vaccine for stomach flu may be possible, UNC research shows	185
Reconstructed 1918 flu virus induces insufficient immune response in mice	186
Canadian cold/flu breakthrough remedy undergoes NCI-sponsored trial in leukemia patients	186
Survivors of 1918 flu pandemic protected with a lifetime immunity to virus	187
More Articles	188 - 316
Chapter 5 - Risk and Prevention.....	317
Rapid response was crucial to containing the 1918 flu pandemic	317
Scientists simulate pandemic influenza outbreak in Chicago	318
Study outlines measures to limit effects of pandemic flu on nursing homes	319
Survey finds parents of premature infants are uninformed about RSV prevention	320
Masks, hand washing, prevent spread of flu-like symptoms by up to 50 percent.....	321
Study Suggests Non-Pharmaceutical Interventions May Be Helpful in Severe Influenza Outbreaks	322
Disease management programs improve diabetics' compliance with checkups, but do little to improve health	323
Experts predict Tamiflu could halve the pandemic influenza death toll versus no intervention.....	324
Winter brings flu, summer brings bacterial infections	325
Many people at high risk of flu infection mistakenly underestimate their risk	326
Pandemic flu plans need more federal guidance and coordination	327
More Articles	328 - 360
Chapter 6 - Therapy and Treatment	361
Vaccinate or not? Treat or not? Study looks at tricky health decisions	361
Existing anti-obesity drugs may be effective against flu, hepatitis and HIV	362
Winter Colds Increase Asthma Difficulties for Children.....	364
Molecular imaging may lead to earlier diagnosis of childhood respiratory virus	365
Study: Fluid buildup in lungs is part of the damage done by the flu	366
Political borders, health-care issues complicate pandemic planning	367
Immunotherapy in high-risk pediatric sarcomas shows promising response.....	368
New treatments for viral and other diseases by blocking genes.....	369
Unmasked and vulnerable	370
Antivirals reduce deaths from flu in hospitalized patients.....	371
Chapter 7 - Vaccines.....	417
Wistar Institute Launches New Vaccine Center	417
Record Number of Kids Expected to Get Flu Vaccine This Year	419
Scientists discover the travel patterns of seasonal flu	420
Traditional Chinese exercises may increase efficacy of flu vaccine	422
Pandemic flu may be well mitigated until vaccine is available	423

New research shows that flu is a trigger of heart attacks	425
Flu shot does not reduce risk of death.....	426
Flu viruses take one-way ticket out of Asia, then travel the world	427
First-time analysis reveals millions of Europeans are left at risk from influenza.....	428
Studies affirm need for influenza and measles vaccinations in HIV-infected patients	429
Influenza isn't the only germ threat in winter.....	431
More Articles	432 - 603
Index.....	605
