

Table of Contents

Preface	v
Introduction	vii
About the Author	ix
Chapter 1 - Anthrax	1
Changing dosing, administration of anthrax vaccine reduces side effects.....	1
Research from Naval Health Research Center, Research Department provide new insights into anthrax vaccines.....	1
Scientists at Centers for Disease Control and Prevention describe research in anthrax vaccines.....	2
Studies from Veterans Affairs Medical Center provide new data on bioterrorism.....	3
Centers for Disease Control and Prevention details research in anthrax vaccines.....	3
Research from University of London, Center for Drug Delivery Research in the area of DNA research published.....	4
Research on anthrax vaccines described by scientists at King's College London, King's College London	5
Report summarizes anthrax vaccines study findings from Centers for Disease Control and Prevention	5
Findings from Naval Institute for Dental and Biomedical Research in biomedicine reported	6
Chapter 2 - Avian Influenza	7
New vaccine may give long-term defense against deadly bird flu and its variant forms.....	7
Studies from FAO and National Reference Laboratory for Newcastle Disease and Avian Influenza provide new data on bird flu vaccines.....	8
Research data from Agricultural Research Service, U.S. Department of Agriculture update understanding of flu vaccines	9
Study results from Justus-Liebig University broaden understanding of bird flu vaccines.....	10
Researchers at Research Center release new data on bird flu vaccines	10
Data on bird flu vaccines published by researchers at National Institute of Allergy and Infectious Disease	11
Investigators at Merck S.A.S. target bird flu vaccines.....	11
New bird flu vaccines data have been reported by scientists at University of Maryland, Department of Veterinary Medicine	12
Research findings from National Institute of Infectious Disease, Infectious Diseases Department update understanding of bird flu vaccines	13
New molecular therapies findings from D.G. Yang and co-authors described.....	13
Scientists at Merck S.A.S. release new data on bird flu vaccines.....	14
More Articles	15 - 14
Chapter 3 - Cancer	15
Biomarkers allow doctors to match therapy to patient.....	15
Public health and cancer prevention: Success and future challenges in cancer policy	18
Immunotherapy: enlisting the immune system to fight cancer	20
Also in the June 24 JNCI	22
NYU Langone Medical Center's tip sheet to the 44th annual meeting of ASCO	25
Other highlights in the Feb. 26 JNCI	26
IU Health & Wellness: Research and insights from Indiana University.....	28
Baylor Research Institute to Collaborate with Mount Sinai School of Medicine to Develop Therapeutic Cancer Vaccines.....	29

Breast cancer vaccine stimulates potent immune response to cancer cells	30
HPV infection linked to throat cancers	32
Biodesign Institute leads innovative project to prevent cancer	33
More Articles	34 - 92
Chapter 4 - Cell Biology	93
How Do the Rules of Immunity Change During Chronic Infections?	93
HIV conquers immune system faster than previously realized	94
Immune Cells Take Divergent Paths When Fighting Infections.....	95
How One Virus Uses Mimicry to Replicate Successfully	96
Immune system 'escape hatch' gives cancer cells traction	97
An Alzheimer's vaccine?.....	98
Identified mechanism in the malaria parasite to help it adapt to infected individuals	99
UT Knoxville research may lead to better flu vaccine	100
USC researchers discover novel way to develop tumor vaccines	101
MGH initiates phase I diabetes trial.....	101
Mice help researchers understand chlamydia.....	102
More Articles	103 - 136
Chapter 5 - Chickenpox	137
Practicing Tai Chi Boosts Immune System in Older Adults.....	137
Researchers from Sheffield Teaching Hospitals NHS Foundation Trust publish findings in chickenpox screening.....	138
Researchers' work from University of California, Semel Institute for Neuroscience focuses on chickenpox vaccines	138
Chapter 6 - DNA Vaccines	141
Pinpoint accuracy: DNA vaccines that home in on DCs are more potent.....	141
Data on DNA vaccines detailed by researchers at Second Military Medical University, Department of Gastroenterology.....	141
Researchers from University of Maryland, Center for Vaccine Development report details of new studies and findings in the area of DNA vaccines	142
Study data from Merial S.A.S. update knowledge of DNA vaccines	143
Research on DNA vaccines detailed by scientists at University of Agriculture, Department of Veterinary Microbiology.....	143
Scientists at Beijing Institute of Microbiology and Epidemiology detail research in cancer gene therapy vaccines.....	144
Scientists at Zhejiang University, Institute of Preventive Veterinary Medicine describe research in DNA vaccines	145
New DNA vaccines findings from University of Massachusetts, Department of Medicine described	145
Reports from Second Military Medical University, Department of Medical Genetics add new data to research in DNA vaccines.....	146
New DNA vaccines study findings reported from Purdue University.....	147
Study findings from Chinese PLA General Hospital broaden understanding of DNA vaccines	147
More Articles	148 - 154
Chapter 7 - Gene Therapy	155
Data on cancer vaccines published by researchers at Roswell Park Cancer Institute	155
Recent studies from Technical University add new data to cancer gene therapy	155
Study results from Second Military Medical University, Department of Medical Genetics broaden understanding of gene therapy	156
Scientists at China Agricultural University publish new data on gene therapy	157

Reports from McMaster University, Center for Gene Therapeutics advance knowledge in tuberculosis vaccines.....	157
New gene therapy study findings have been reported from University of Illinois.....	158
Researchers at Chinese Academy of Sciences publish new data on gene therapy.....	159
New DNA vaccines study results from University of Saskatchewan, Vaccine and Infectious Disease Organization described	159
Reports outline gene therapy research from Harvard University, Division of Viral Pathogenesis.....	160
Scientists at University of Wisconsin, Department of Medicine detail research in cancer vaccines	161
Studies from S. Mahor and colleagues reveal new findings on DNA vaccines	161
More Articles	162 - 168
Chapter 8 - Genetics	169
Vaccine triggers immune response, prevents Alzheimer's.....	169
Gladstone scientists identify genetic link that may neutralize HIV	170
Research from Institute of Veterinary Bacteriology provides new data on gene therapy	170
Reports from Center for Genetic Engineering and Biotechnology describe recent advances in hepatitis B virus vaccines.....	171
Studies from University of Nottingham, Institute of Infection add new findings in the area of hepatitis C virus vaccines.....	172
Study results from Peking University, National Laboratory of Protein Engineering and Plant Genetic Engineering in the area of DNA vaccines published.....	173
Research from Fudan University, Institute of Genetics in tuberculosis vaccines provides new insights	173
Researchers from Wakayama Medical University, Department of Surgery publish findings in cancer vaccines.....	174
Data from National Institute of Allergy and Infectious Disease advance knowledge in influenza vaccines.....	175
International Center for Genetic Engineering and Biotechnology details research in malaria vaccines.....	175
Researchers from Fudan University, Engineering Institute detail findings in mouth disease vaccines	176
More Articles	177 - 186
Chapter 9 - HIV/AIDS.....	187
The Quest for an Effective HIV Vaccine Presents New Possibilities, Challenges	187
IAVI statement on new analysis of STEP large-scale AIDS vaccine trial.....	189
UT pathologists believe they have pinpointed Achilles heel of HIV	190
Studies affirm need for influenza and measles vaccinations in HIV-infected patients.....	191
Study reveals link between Apobec3 gene and neutralizing antibody response to retrovirus.....	192
Rare case explains why some infected with HIV remain symptom free without antiretroviral drugs	193
Novel HIV Vaccine Created at The Wistar Institute Funded for Clinical Development.....	194
Japan's DनावेC and IAVI partner on novel AIDS vaccine strategy	195
Study finds unique HIV vaccine formula elicits strong immune responses.....	196
Scripps research scientists devise approach that stops HIV at earliest stage of infection.....	197
New HIV vaccine target could solve mutation problem	198
More Articles	199 - 224
Chapter 10 - Haemophilus influenzae	225
Up-to-Date Vaccinations Will Help Your Child Stay in School.....	225
Data on poliomyelitis vaccines described by researchers at Chang-Gung University, Department of Pediatrics.....	226
New bacterial meningitis vaccines study findings have been reported by scientists at Children's Hospital, Department of Child Health	226
New life sciences findings from Mostoles Hospital described	227

Researchers from University of Melbourne, Murdoch Children's Research Institute publish findings in hepatitis B virus vaccines.....	228
Reports from Kenya Medical Research Institute advance knowledge in hib disease vaccines	228
Reports outline bacterial meningitis vaccines study findings from St. Mary's Hospital, Department of Paediatrics.....	229
Researchers from University of Missouri, Department of Chemistry describe findings in influenza vaccines.....	230
Research reports on rotavirus vaccines from National University provide new insights.....	230
Research from University of Michigan, Department of Epidemiology in the area of influenza vaccines published	231
Findings from F.S. Lim and co-researchers advance knowledge in hepatitis B virus vaccines.....	231
More Articles	232 - 234
Chapter 11 - Herpes.....	235
Studies conducted at Johns Hopkins University on herpes zoster virus vaccines recently published.....	235
Data on herpes zoster virus vaccines detailed by researchers at University of Texas, Health Science Center.....	235
Study findings from Olmsted Medical Center, Department of Research provide new insights into herpes zoster virus vaccines.....	236
Studies from T.A. Lieu and co-authors have provided new information about herpes zoster virus	237
Chapter 12 - Human Papillomavirus.....	239
Cervical cancer prevention should focus on vaccinating adolescent girls	239
A missed shot: The failure of HPV vaccination state requirements.....	240
Study shows continued success for new HPV vaccine against virus responsible for cervical cancer	242
HPV vaccine does not appear to be effective for treating pre-existing HPV infection.....	243
Higher anaphylaxis rates after HPV vaccination: CMAJ study	243
Canadians welcome HPV vaccine -- but not at any price	244
Poorer Women & Girls Have Higher Risk of Cancer from Human Papillomavirus (HPV), According to New Cincinnati Children's Study	245
The Oral Cancer Foundation Urges HPV Vaccination for Males.....	246
Research from Public Health Institute yields new data on human papillomavirus vaccines	247
Research on cancer vaccines discussed by scientists at World Health Organization.....	247
Chapter 13 - Immunology	253
Unique Mouse Joins Battle Against Dengue Fever	253
Human antibodies that block human and animal SARS viruses identified.....	254
Scripps research team blocks bacterial communication system to prevent deadly staph infections	255
Immune Antibodies Penetrate Neurons to Clear Alzheimer's-Linked Amyloid	257
Novel antigen-cloning technique may boost efforts to develop a melanoma vaccine	258
Poxvirus' ability to hide from the immune system may aid vaccine design.....	259
Immune mechanism could help explain transient immune suppression often seen in acute infections.....	260
Early research suggests a shot could replace blood pressure meds.....	261
OHSU research suggests America may over-vaccinate	262
Immunotherapy in high-risk pediatric sarcomas shows promising response.....	263
Stanford researchers identify immune dysfunction in melanoma patients.....	264
More Articles	265 - 330
Chapter 14 - Influenza.....	331
Wistar Institute Launches New Vaccine Center	331
Scientists discover the travel patterns of seasonal flu	333
Traditional Chinese exercises may increase efficacy of flu vaccine.....	334
Pandemic flu may be well mitigated until vaccine is available	336

Rapid response was crucial to containing the 1918 flu pandemic	337
New research shows that flu is a trigger of heart attacks	338
Flu shot does not reduce risk of death.....	339
Flu viruses take one-way ticket out of Asia, then travel the world.....	341
Bypassing eggs, flu vaccine grown in insect cells shows promise	342
Researchers find quick way to make human monoclonal antibodies against flu.....	343
Researchers Find Surprising Pattern of Influenza Spread in South America and Tropics.....	344
More Articles	345 - 396
Chapter 15 - Malaria	397
Health officials renew Indo-US Vaccine Action Program.....	397
Scientists find new insight into genome of neglected malaria parasite.....	398
Vanderbilt Investigators Testing Vaccine to Slow Malaria's Global March	399
ETH Zurich researchers develop antibody test	399
Sugar identified as key to malaria parasite invasion	400
Bug-Zapper: A dose of radiation may help knock out malaria	401
Novel approach for rapid identification and development of malaria vaccines.....	401
Researchers from Churchill Hospital, Nuffield Department of Clinical Medicine report on findings in vaccine efficacy	402
Research data from Swiss Tropical Institute, Department of Public Health update understanding of falciparum malaria vaccines.....	403
Study results from Drexel University in the area of malaria vaccines published.....	403
Scientists at Walter Reed Army Institute of Research, Research Division report research in malaria vaccines.....	404
More Articles	405 - 410
Chapter 16 - Measles	411
Study firmly shows no connection between measles, mumps, rubella MMR vaccine and autism	411
Investigating the measles virus as a tool to kill multiple myeloma.....	412
Scientists at Centers for Disease Control and Prevention target measles vaccines.....	413
Research from University of Padova provides new data on hepatitis B virus vaccines.....	413
Researchers from Yokohama City University, Department of Pediatrics report details of new studies and findings in the area of allergies vaccines.....	414
New measles vaccines study findings recently were reported by A. Esteghamati and co-researchers	415
Study results from University of Leipzig in the area of mumps vaccines published	415
Study data from Charing Cross Hospital update understanding of mumps vaccines.....	416
Report summarizes mumps vaccines study findings from P. Goh and co-researchers	417
Study results from Johns Hopkins University update understanding of mumps vaccines.....	417
Reports from Mayo Clinic add new data to research in allergies vaccines.....	418
More Articles	419 - 422
Chapter 17 - Meningococcal	423
NVIC Analysis Shows Greater Risk of GBS Reports When HPV Vaccine Is Given with Meningococcal and Other Vaccines.....	423
Researchers from University of Oxford, Center for Clinical Vaccinology and Tropical Medicine describe findings in pneumococcal disease vaccines	423
Study findings from Laval University provide new insights into vaccine efficacy	424
Findings from F.M. LaForce and co-authors broaden understanding of meningitis vaccines	425
Studies from University of Tehran, Asthma and Allergy Research Institute update current data on meningococcal vaccines.....	425
Reports summarize meningococcal vaccines research from Children's Hospital	426
Report summarizes meningococcal vaccines study findings from S.F. Brynjolfsson and co- researchers.....	427

Studies conducted at Landspítali University, Department of Immunology on pneumococcal disease vaccines recently published	427
Scientists at McGill University, Health Center report research in life sciences.....	428
Research from KEM Hospital, Seth G.S. Medical College yields new findings on meningococcal vaccines.....	428
Research in the area of meningococcal disease reported from J.J. Caro and colleagues	429
More Articles	430 - 430
Chapter 18 - Mumps.....	431
Reports from University Federal do Rio Grande do Sul add new data to research in mumps vaccines	431
Studies from Center for Infections in the area of mumps vaccines published	431
New mumps vaccines study findings have been published by scientists at National Public Health Institute	432
New mumps vaccines research from Kitasato Institute for Life Science discussed	433
Chapter 19 - Pediatrics.....	435
HIV-TB spreads in Africa, undermines control of world's 2 deadliest infectious diseases	435
Majority of U.S. Parents Not in Favor of HPV Vaccine Mandates	437
Most vaccine-allergic children can still be safely vaccinated, Hopkins experts say	439
Discovery to hasten new malaria treatments, vaccines for children	440
New Lancet study: Malaria vaccine candidate has promising safety, tolerability profile in infants.....	441
Infectious diseases experts issue blueprint to avert.....	442
Trials underway for 'essential' new TB vaccine.....	443
A year of added life more valuable for the young, study suggests	444
Survey confirms parents' fears, confusion over autism.....	444
Chapter 20 - Pediatrics - DTP	491
Researchers at Bandim Health Project have published new data on diphtheria vaccines	491
Data on Hib vaccines reported by researchers at University Children's Hospital	491
Scientists at Bandim Health Project release new data on whooping cough vaccines	492
Researchers from Johns Hopkins University, Department of International Health report recent findings in Bacillus calmette-guerin vaccines.....	493
Studies from Bandim Health Project further understanding of vaccines	493
Chapter 21 - Pediatrics - HBV	495
Stanford researchers find way to fight treacherous hepatitis B.....	495
Majority of children vaccinated against hepatitis B not at increased risk of MS.....	496
Reports outline immunization study results from Tzu Chi University, Department of Internal Medicine	497
Chapter 22 - Pediatrics - Influenza	499
Record Number of Kids Expected to Get Flu Vaccine This Year	499
Study Reveals Gaps in Vaccine Financing For Underinsured Children	501
Influenza vaccine causes weaker immune response for children of rural Gabon than in semi-urban areas	502
Flu vaccine not associated with reduced hospitalizations or outpatient visits among young children.....	503
Flu Shots Can Prevent Many Visits to the Doctor During Flu Season	503
Annual flu shot cuts need for doctors' visits, hospitalization among children	504
Mother's flu shot protects newborns	504
Experts Urge Expanding Influenza Vaccination Season to Increase Immunization Rates, Protect More Americans.....	505
Childhood Influenza Immunization Coalition Issues New Report to Help Improve Low Childhood Influenza Immunization Rates	506

Study findings on flu vaccines are outlined in reports from Fred Hutchinson Cancer Research Center.....	507
Recent findings from Department of Health and Human Services highlight research in flu vaccines	508
More Articles	509 - 512
Chapter 23 - Pediatrics - Pneumococcal.....	513
Serious illness among children with sickle cell disease reduced with vaccine	513
Pneumococcal disease rates down significantly post-vaccine	514
Multiresistant Bacterial Strain That Can Cause Ear Infections Emerges; Resistant to Antibiotics	515
Pneumococcal conjugate vaccines can improve the lives of HIV-infected children	516
New insights could lead to a better pneumococcal vaccine	517
Increase seen in pneumococcal infections not covered by childhood vaccine.....	518
Vaccine can help reduce frequent ear infections in children, research shows	518
Despite vaccine, public should not get complacent about pneumococcal disease	519
Vaccinated infants well-protected against severe pneumococcal infection in Norway	519
Pneumococcal vaccine linked to less hospitalizations, costs for children under age 2.....	520
Research from Emory University, Department of Biostatistics reveals new findings on pneumococcal disease vaccines	521
More Articles	522 - 538
Chapter 24 - Pediatrics - Rotavirus	539
Research conducted at Centers for Disease Control and Prevention has provided new information about acute gastroenteritis vaccines.....	539
Research on acute gastroenteritis vaccines detailed by scientists at Centers for Disease Control and Prevention	540
Reports from Merck & Company, Inc. describe recent advances in gastroenteritis vaccines.....	540
Researchers from University of Antwerp, Faculty of Medicine detail findings in rotavirus vaccines	541
Recent findings in rotavirus vaccines described by researchers from Royal Children's Hospital	542
Chapter 25 - Pediatrics - Tuberculosis	543
Reports summarize life sciences study results from University of Cape Town, Institute of Infectious Disease and Molecular Medicine	543
New tuberculosis vaccines research from Case Western Reserve University, Department of Pediatrics outlined.....	544
Research from University of Saskatchewan, Department of Medicine provide new insights into Bacillus calmette-guerin vaccines.....	544
Chapter 26 - Peptide Vaccines.....	547
Huazhong University of Science and Technology publishes research in neuropathic pain vaccines	547
Scientists at Memorial Sloan Kettering Cancer Center publish research in cancer vaccines immunology	547
Studies from University of Bergen, Gade Institute in the area of Sjogren syndrome vaccines described	548
Scientists at Ohio State University publish research in cancer vaccines.....	549
Research on peptide vaccine discussed by scientists at University of Manitoba	549
Investigators at University of Manitoba zero in on peptide vaccine	550
Researchers from Leiden University describe findings in vaccine safety.....	551
Studies from National Institute of Infectious Disease in the area of proteomics described.....	551
Recent findings in cancer vaccines described by researchers from Kurume University, Department of Urology.....	552
Research on cancer vaccines reported by scientists at National Hospital Organization, Department of Medicine	553
Investigators at Research Institute for Medicine of Nanjing Command publish new data on vaccines.....	553

More Articles	554 - 560
Chapter 27 - Pneumonia	561
Flu vaccine may not protect seniors well	561
Cancer patients not getting live-saving flu and pneumonia shots	562
Scientists at M.D. Anderson Cancer Center, Department of Infectious Diseases detail research in cancer vaccines	562
Research on pneumonia vaccines reported by scientists at University of Paris	563
New pneumococcal disease vaccines study findings recently were published by researchers at Chongqing Medical University, Department of Laboratory Medicine	564
Reports outline drug resistance research from G.R. Micro Ltd.	565
Research from University of Virginia, Department of Microbiology in the area of mucosal immunization published	565
Research results from University of Alberta, Mackenzie Health Sciences Center update knowledge of pneumococcal disease vaccines	566
New research on pneumococcal disease vaccines from Harvard University, Department of Epidemiology summarized	567
Researchers from Catholic University, Department of Molecular Cell Biology detail new studies and findings in the area of strep infection vaccines	567
New immunization research from Veterans Affairs Medical Center discussed.....	568
More Articles	569 - 574
Chapter 28 - Polio	575
Researchers Use Poliovirus to Destroy Neuroblastoma Tumors in Mice	575
New analysis says eradicating polio a better option than extended control of the disease	576
Researchers from Stanford University, Department of Pediatrics report recent findings in polio vaccines.....	577
Research conducted at M.S. Collett and co-researchers has updated our knowledge about polio.....	577
Reports outline poliomyelitis vaccines study findings from Tehran University of Medical Sciences, Department of Pathobiology	578
Research on sarcoma vaccines described by scientists at University of Medicine and Dentistry of New Jersey	578
Studies from University of Medicine and Dentistry of New Jersey provide new data on sarcoma vaccines.....	579
Research from University of Thessaly, Department of Biochemistry has provided new information about poliomyelitis vaccines	580
Chapter 29 - Proteomics.....	581
Vaccine Thwarts the Tangles of Alzheimer's	581
Vaccine thwarts the tangles of Alzheimer's	582
Engineered protein shows potential as a strep vaccine	583
New technology for boosting vaccine efficiency.....	584
Novel molecules developed at UB can boost vaccine potency	585
Researchers find first conclusive evidence of Alzheimer's-like brain tangles in nonhuman primates.....	586
'Combination' Lyme disease vaccine proteins patented	587
A protein sequence associated with Huntington's disease may become life-saving vaccine component.....	588
Vaccine may double survival in patients with deadly brain tumors.....	589
Groundbreaking, lifesaving TB vaccine a step closer.....	589
Progress toward an anti-tumor vaccine reported.....	590
More Articles	591 - 608

Chapter 30 - Rotavirus.....	609
Reports summarize rotavirus vaccines study results from Tulane University	609
Recent findings in rotavirus vaccines described by researchers from Emory University	609
New rotavirus vaccines data have been reported by scientists at University of Cape Town, National Health Laboratory Service	610
Studies conducted at National Institute for Public Health and the Environment on rotavirus vaccines recently published	611
Study data from Merck & Company, Inc. update understanding of life sciences.....	611
Reports from Merck & Company, Inc. describe recent advances in life sciences	612
Reports summarize rotavirus vaccines study results from Chinese University of Hong Kong, Department of Paediatrics.....	613
Scientists at Nagasaki University target rotavirus vaccines.....	613
Reports outline rotavirus vaccines study findings from A. Chouikha and colleagues	614
Data on rotavirus vaccines published by F. Huet and colleagues	614
Chapter 31 - Rubella.....	617
Number of cases of most vaccine-preventable diseases in US at all-time low	617
New iridocyclitis vaccines findings from University of Illinois described.....	618
Reports from University of Manitoba, Inflammatory Bowel Disease Clinical and Research Center advance knowledge in mumps vaccines	618
New german measles vaccines study findings have been published by scientists at Aravind Medical Research Foundation.....	619
Inonu University, Department of Public Health reports research in german measles vaccines	620
Research by X. Badilla and colleagues in german measles vaccines provides new insights	620
Chapter 32 - Smallpox.....	623
Fever After Smallpox Vaccination Tied to Individual Genetic Variations.....	623
Effective health messages may yield vaccine compliance among ER workers	624
Genetic factors are linked to fever following smallpox vaccination	625
HHS Buys Next Generation Smallpox Vaccine.....	626
Research from A. Garcel and co-authors reveals new findings on smallpox vaccines.....	627
Research from Centers for Disease Control and Prevention provide new insights into smallpox vaccines.....	627
Recent findings from Center for Cancer Research highlight research in smallpox vaccines.....	628
New findings from Center for Biologics Evaluation and Research in the area of microarrays described	629
Researchers from University of Michigan, Department of Internal Medicine report recent findings in smallpox vaccines	629
Researchers from Fred Hutchinson Cancer Research Center report details of new studies and findings in the area of bioterrorism	630
Researchers at Case Western Reserve University, Center for Global Health and Diseases release new data on smallpox vaccines.....	630
More Articles	631 - 634
Chapter 33 - Whooping Cough.....	635
Pertussis: Adults can fall severely ill too	635
Scientists at National Institute for Biological Standards and Control detail research in pertussis vaccines.....	635
Research results from Medical University of Vienna update understanding of whooping cough vaccines.....	636
Studies from University Nacional of La Plata provide new data on whooping cough vaccines.....	637

Studies from Vanderbilt University, Division of Infectious Diseases describe new findings in pertussis vaccines.....	637
Research from Harvard University has provided new information about pertussis vaccines.....	638
Study findings on pertussis vaccines are outlined in reports from National Institute for Biological Standards and Control.....	638
Studies from Centers for Disease Control and Prevention yield new information about pertussis vaccines.....	639
Research from National Institute of Public Health and the Environment reveals new findings on pertussis vaccines.....	640
Research on whooping cough vaccines discussed by scientists at Orebro University, Department of Paediatrics.....	640
Researchers at Saudi Aramco Medical Services Organization, Division of Internal Medicine target whooping cough vaccines.....	641
More Articles.....	642 - 642
Index.....	643
